price of such cotton shall then be in accordance with the description, staple and class mentioned in such certificate. It further provides for an appeal to the Textile Commissioner's Committee (which is the same as during 1951-'52) where the buyer or the seller does not accept the certificate from the East India Cotton Association. The decision of the Committee shall be final and the maximum price of such cotton shall be in accordance with such decision.

3. By yet another notification published in the same *Gazette of India* Extraordinary, the Textile Commissioner has permitted trading in the crop of the 1952-'53 season as follows :—

(*a*) Ready Contracts;

(*b*) Delivery Contracts; that is to say Forward Contracts for cotton (full-pressed, half-pressed or loose) of specific description and for specific delivery at specified price, delivery orders, railway receipts or bills of lading in respect of which are not transferable to third parties.

4. The Government's decision regarding "Hedge" trading in cotton will be announced shortly.

5. For the cotton year 1952-'53, each mill is likely to receive allocations of India cotton equivalent to its actual consumption of this cotton during the cotton year 1951-'52. Initially, however, 33⅓ per cent of this figure will be allocated and will be in terms of State-wise quotas. Additional quantities of cotton required for consumption during this year will have to be met from imports within the import policy as may be announced by Government from time to time. The quantities of stocks lying with mills as on 31st August, 1952, will be treated as reserves.
